

K-9 BSD[®]

Behavior Shaping Device

BSD HDPE Box System

Ultra low odor package allowing a wide range of training aids to be the abundant odor source.

A

B

C

A: Device box uses spacer to hold device in place during horizontal use and thumb screw fasteners.

B: Hand holes on boxes go in up position during horizontal use to place plastic rivets in down position.

C: Distraction box comes with PVC tube that is capped to hold reward item same as device.
